

FCC Commissioners  
The Federal Communications Commission RE: Docket 04-435  
445 12th Street, SW  
Washington, DC 20554

Dear FCC Commissioners ,

I am writing to voice my concerns about the FCC's proposal to relax the restrictions on the use of cell phones on airplanes in flight.

There is no hard evidence that cell phone use doesn't interfere with navigational instruments. The introduction of cell phone use in the cabin will not only increase tension among passengers, it will compromise flight attendants' ability to maintain order in an emergency. Cell phone use could also enable terrorists to coordinate a plan of action more effectively.

Please leave the current rules in effect.

I can not stand it when someone in an enclosed place is talking on a cell phone. Just imagine how bad it would be in an airplane with 20 or 30 people all talking on a cell phone at the same time. Please Please don't change the rules.

Also think how easy it would make terrorist planning if they could talk to people on the ground while in flight. I vote NO on cell phone usage in flight.

Sincerely,

Melba Duncan
